CAREER OBJECTIVE

Junior Front-End Web Developer, As a recent graduate with a degree in accounting and a burgeoning passion for technology and design, I am eager to pivot my career toward front-end development. While my college curriculum did not cover front-end development specifically, my education has equipped me with valuable skills such as analytical thinking, problem-solving, and attention to detail. I have independently pursued self-study in front-end technologies, including HTML, CSS, and JavaScript,angular 2+, and have completed several personal projects to hone my skills. I am now seeking an opportunity to leverage my accounting background alongside my newfound proficiency in front-end development to create intuitive and visually compelling user interfaces..

INTERSHIPS

Intern – Route Academy
Front end web Development at Route Academy [From 10-2023 untill 3-2024]
Acquired practical knowledge and hands-on experience in HTML, CSS, JavaScript, jQuery, and Angular 2+.
Collaborated with mentors and peers to complete various projects, gaining insights into industry best practices.
Demonstrated strong problem-solving skills and attention to detail in debugging and troubleshooting code.
Contributed to the development of responsive and user-friendly web interfaces.
